

SPA HEATERS

West Hest Industries replacement spa heater elements are manufactured to the highest OEM standards using top quality components. Our corrosion resistant Incoloy sheathed elements are designed for maximum heat transfer and long service life. Heating elements and sensing wells are brazed into rust-proof brass bushings. Our elements are available in a wide range of wattages and voltages to meet every application.

Bushing Size	Watts	Volts	Immersion Length	# wells	Well ID	Terminal Style	Part #
1"	1500	120	8¾"	2	¼	Screw	H-IS10-087W-1500-12HI
1"	4000	240	12"	2	¼	Screw	H-IS10-120W-4000-24FI
1"	5500	240	13"	2	¼	Screw	H-IS10-130W-5500-24FI
1"	6000	240	13"	2	¼	Screw	H-IS10-130W-6000-24FI
1¼"	1500	120	6½"	1	½	Screw	H-IS12-065T-1500-12HI
1¼"	1500	120	12"	2	¼	8" Wire	H-IS12-110W-1500-12FI
1¼"	1500	120	7½"	1	½	Screw	H-IS12-075T-1500-12FI

FLOW-THROUGH SPA HEATER

The flow through style element has the same rugged Incoloy element as the screw-in type heaters shown above. Each element comes complete with hardware for mounting and electrical connections as well as o-ring seals. Available in 4000 or 5000 watts at 240 volts

Watts	Volts	Part #
4000	240	H-ITFT-1150-4000-24IT
5500	240	H-ITFT-1150-5500-24IT
