

## Aerosol Mold Protection Products – cont'd

### 11 OZ Die Makers Lubricant – L with Teflon

Long lasting, heat resistant lubricant for molds and dies. It is blended not to dry and to minimize bleeding out with ejector pins, knockouts, slides, cams and all moving parts.

Teflon additive cuts galling and will not wipe away on closely fitted tooling. Fully compatible with lithium and calcium greases.

### 11 OZ SAFESEAL Premium Tool Long Term Steel Protectant

A heavy duty rust preventative designed to safeguard fine mold finishes and eliminate expensive mold refinishing caused by rust in storage. Uses unique green coloring agent that promotes visibility for coverage protection and assured removal. Foaming action helps spread the product to the smallest, hidden areas of the mold. Can be safely applied to surfaces up to 350 degrees F and removal is easily done with dry paper towels and startup shots.

### 11 OZ Clear Coat Mold Surface Protector

Light Duty Rust Preventative and Sealer

Designed for short-term mold storage, it prevents fine mold finishes and eliminates cleaning between mold storage and operation.

- Requires no wiping; removed by startup shots
- Won't bleed out of moving mold parts, pins, knockouts, etc.
- No CFCs, HCFCs, Class 1, 2 substances or ODS
