

ELECTRIC INFRARED HEATERS

MITEY MIDGET: 94% Radiant Efficient

Mitey-Midget heaters excel as people-heaters in areas requiring a linear, compact and highly concentrated heat source. They are C-UL listed for indoor industrial and commercial comfort heat applications. (Models from 13" to 46")

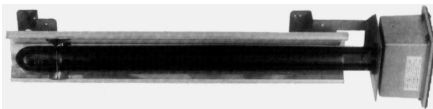

COMMON APPLICATIONS:

- | | |
|-------------------|----------------|
| Work Stations | Farm Buildings |
| Enclosed Walkways | Aisleways |
| Smoking Shelters | Pump Houses |
| Freezer Doors | |

Housings are fabricated from .062 anodized aluminum (no ferrous metals), and accept mounting brackets for permanent installation or chain suspension. Our high watt density quartz infrared lamp is shipped with each heater.

METAL SHEATH HEATER SERIES:

Mitey-Midget metal sheath heaters are only 5" wide and 4-1/2" high, and easily fit in locations where other heaters can not. Our sturdy construction includes rugged metal sheath elements and heavy duty extrusions.

These heaters are for use in high vibration and abusive atmospheres, and/or where low mounting and low watt density is required. Mitey-Midget heavy duty metal sheath heaters are made for indoor industrial and commercial comfort heat applications.

The recommended mounting height for 1.8 and 2.0 KW Heaters is 8 to 10 feet; and 8 to 12 feet for 4.5 KW heaters.

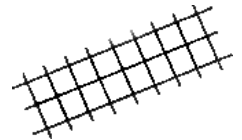

FEATURES:

- Exclusive 4 year pro-rated warranty on the element
- Rugged U-shaped metal sheath element, installed in fixture
- Single end wiring, gasketed terminal box
- Reflector is .032 BOS aluminum for maximum reflectivity
- Factory wired with hi-temp silicon wire
- Brackets accept "S" hooks, or rigid angle iron mounting

Model Number	Dimensions		Watts	Volts
	W	L		
MM-13A	3-3/4"	13"	500	120
MM-18A	3-3/4"	18"	1000	208
