Sizes

The above chart represents sizes that are available. Other inside diameters and widths, both between those and larger than those listed are available. Constructions of units with inside diameters over 11 1/2" must be manufactured in accordance with the following table. Metric sizes are also available.

CONSTRUCTION	INSIDE DIAMETER RANGE
Two Piece	Over 11 1/2" to 22 1/2"
Three Piece	Over 22 1/2" to 36"
Four Piece	Over 36" to 48"

Wattage

The above chart is based on a watt density of 30 watts per square inch of surface.

The watt density may vary, depending on the operating temperature.
