

Quantum Coolers

The Cooler

- * Very strong blow molded polyethylene body for better scratch resistance;
- * Interchangeable front panel for a fresh look whenever the customer feels like it;
- * Adjustable cold water thermostat;
- * Removable cold water tank: stainless steel or food grade plastic;
- * The “no spill system” is offered as a standard feature;
- * High flow faucet with removable nozzle for easy cleaning;
- * Nozzle with 2 layer design to prevent fingers from touching area in contact with water;
- * Anchors for cup holder.

The Filter System

The NSF 42 & 53 Certified cartridge delivers commercial grade durability and quality and protects the filter system from splitting or bursting. It's lined with a food-grade polymer that prevents the water from coming in contact with the metal. Quantum filters rid your water of chlorine, rust, asbestos fibres, and other contaminants while retaining essential minerals found naturally in water. So your water is as healthy as it tastes.

Part #	Style	Reservoir	Colour
WQUAN-PKCC-CCSR	Cook & Cold	Stainless Steel	Charcoal
WQUAN-PKCC-HCSS	Hot & Cold	Stainless Steel	Charcoal
WQUAN-PKWC-CCSR	Cook & Cold	Stainless Steel	White
WQUAN-PKWC-HCSS	Hot & Cold	Stainless Steel	White

Replacement Filter: **WQUAN-1000-FLTR**

Fits all Thermo Concepts coolers

Thermo Concepts Float Guard System

Prevents accidental leaks caused by faulty bottles. When water levels in your cooler reach a critical level, the float guard raises and blocks the entry of more water.

Fits all Thermo Concepts Coolers
