

SS 1000 4 Stage R/O Systems

Slim Line Series for cooler mount or under counter

The SS 1000 series of water purification units is designed to fit conveniently under your counter, in a kitchen cupboard or can be hidden on the back of your point-of-use water cooler. The SS-1000 series utilizes candle mount filters that screw into the filter housing head for quick, easy filter changes. With its sleek design and compact size the SS 1000 Filter systems are ideal for virtually any business or residential environment.

SS 1000 4 Stage R/O System

Designed to offer up to 75 gallons per day, these R/O systems all come equipped with 1/4" line from tank.
