

## 5 Stage R/O With Membrane Flush

### 5 Stage R/O System with Membrane Flush

This system comes equipped with a membrane flush. The membrane flush removes osmotic pressure off the membrane to allow free flowing water to remove any built up substrate from the membrane.

| GPD | Line | UV | Part #                 |
|-----|------|----|------------------------|
| 50  | 3/8" | No | <b>WSRO5-5038-H405</b> |

#### System Sold Complete With:

|                    |                     |
