

Flow-Line Filter System

Ideal where high volumes of water are required to be filtered such as Agriculture, water stores and commercial industries. The Flow meter and pressure gauge allow for accurate monitoring of the system and quick intervention should flow or pressure become an issue.

System Sold Complete With:

- 4 ½" x 20" Filter Housing
- Flow Meter 2 - 10 GPM
- Pressure Gauge
- Pressure Relief Button
- ¾" Inlet and Outlet
- Isolation Ball Valves

Assembled on a sturdy wall bracket, ready to mount.

Filter Sold Separately
