

## Filter Housings

### 2½" x 10" Standard Housing

The 2 ½" x 10" Standard Housing is the building block for common reverse osmosis systems and lighter demand filter systems. Constructed from 100% FDA Food Grade polypropylene, these housings are suited for use up to 100 psi. These Housings use a small bracket and small "O" rings.

Part #	Thread Size	Sump Colour	Cap Colour
<b>W-FH42-2510-020A</b>	¼"	Clear	White
<b>W-FH42-2510-02AA</b>	¼"	White	White

### 2½" x 10" Heavy Duty Housing

The 2 ½" x 10" Heavy Duty Housing is for use with smaller whole house systems and filter systems requiring a more robust housing. Constructed from 100% FDA Food Grade polypropylene, these housings are suited for use up to 120 psi. These Housings use a medium bracket and medium "O" rings and come with a pressure relief valve.

Part #	Thread Size	Sump Colour	Cap Colour
<b>W-FH42-2510-P313</b>	⅜"	Blue	Black
<b>W-FH00-2510-P303</b>	⅜"	Clear	Black
<b>W-FH00-2510-P403</b>	½"	Clear	Black
<b>W-FH42-2510-P413</b>	½"	Blue	Black
<b>W-FHHD-2510-P613</b>	¾"	Blue	Black
<b>W-FHHD-2510-P603</b>	¾"	Clear	Black

### 2½" x 20" Heavy Duty Housing

The 2 ½" x 20" Heavy Duty Housing is for use with whole house systems, commercial reverse osmosis systems and larger filter systems. Constructed from 100% FDA Food Grade polypropylene, these housings are suited for use up to 120 psi.

Part #	Thread Size	Sump Colour	Cap Colour	Bracket Size	"O" Ring Size	Special Features
